REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior arts teach a content addressable memory (CAM) having match circuit for comparing input data with the pre-stored data. However, the prior arts fail to disclose or fairly suggest that such match circuit including a match-high line, a match-low line, and a pre-charge sub-circuit able to controllably connect said match-high line to a voltage source and to controllably connect said match-low line to a ground. Thereby charging said match-high line and discharging said match-low line. Further, the prior arts also fail to suggest a method for comparing input data with said pre-stored data which includes the steps of "comparing one bit of the input data with one bit of the pre-stored data in each of the plurality of cells to determine whether pre-specified match criteria are met" and also the steps of "connecting said match-high line and said match-low line if said match criteria are met, thereby permitting detection of a mismatch condition."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Viet Q Nguyen whose telephone number is (703) 308-4897. The examiner can normally be reached on 7am-6pm (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on (703) 308-4910. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
